

Sewn-in groundsheet

Ventilation

The largest of the Boston tents, offering all the benefits of a large tunnel tent combined with a unique front canopy to offer great protection for the entrance. The large porch windows create a very light and bright porch area, ideal for chairs and tables as well as other equipment to be in a comfortable and inviting setting, even on gloomy days. The bedrooms are large, separated by a zip divider to offer privacy. The size and features of this tent make it an interesting choice for families searching for a modern looking tent with great living space. Carpets and footprints are available as extras.
